Hello,

Below find my input on 2 of the 4 suggested themes (I will not comment on cell lines and on stem cells as they are not part of my expertise):

Theme 1 (multijurisdictional research): Overall this theme seems well written and sound to me. I suggest that in subsection 3.4's 3rd paragraph, three weeks be changed to one month, for simplicity and feasibility.

Theme 2 (broad consent): Overall this theme seems well written and sound to me. I suggest that in section 3's second paragraph's last sentence, the word in be deleted (between the word during and the word the).

Best,
